Chemical Lime Announces Price Increase

FORT WORTH, TX – October 14- Chemical Lime Company announces that list prices for its lime-based products will increase \$30 per ton effective January 1, 2009, or as contracts allow.

Chemical Lime continues to aggressively pursue cost-reducing initiatives, but these efforts continue to be more than offset by unprecedented escalation in energy, mining, raw materials, maintenance, capital, and other non-energy related costs.

We remain committed to providing high-quality products and services, and this action will allow Chemical Lime to remain the leader in the lime industry.
